

This document contains release notes for Version 3.2 of FOIAonline, for release after close of business (COB) on August 10, 2020. This document provides a summary of the bug fixes and other updates contained in the release.

### **Enhancements**

---

- Added the Dashboards and New Case File action menu to the Email Support page.
- Added “Print Case File” action to closed cases for all agency users.
- Added ability to search for cases by Legacy Tracking Number via the Advanced Search.

### **Bug Fixes**

---

- Fixed functionality on consultations, including:
  - The consultation description would not display on the consultations tab of the original.
  - An error message would display when a case file review task was generated.
  - Records added at submission of an external consultation were not uploaded to the Records tab.
- Fixed issue where error messages would display on a case if an inactive reviewer was present in the review tab.
- Fixed issue where Pay.gov users were not redirected to FOIAonline after a successful payment to select agencies.
- Fixed issue where incorrect options displayed in the Outcome drop-downs on Fee Waiver and Expedited Processing tasks.
- Fixed issue where new users were created as 2FA users, even when the agency was PIV/CAC enabled.

### **Other Updates**

---

- Updated instructional text in the configurable “Responsive Records Page Counts By Release” section.
- Updated the error message that displays when assigning tasks fails.
- Removed the Release Date column from the Records tab on consultations.
- Updated the Home page and ancillary pages to include Department of the Interior in the lists of FOIAonline partner agencies.
- Updated system to authenticate PIV/CAC cards only on the agency login pages.
